A SMALL GIFT FOR YOUR 2027 PLANNING

Vision board 2027

Most vision boards ask what *you* want. This one also asks what a changing world is asking *of* you.

Five buckets for a world that won't sit still

01 Me × AI

What will I hand over to technology, and what will I fiercely hold on to? Which human skill do I want to sharpen this year?

📌 **Pin this:** one task you'll stop doing yourself.

02 Energy, not just time

What gave me energy in 2026, and what quietly drained it? What is my non-negotiable recovery ritual that I am carrying into 2027? Where will I intentionally focus my energy?

Pin this: an image of how you want to feel on a Tuesday afternoon.

03 My circle

Who do I want to grow alongside? Who could I mentor, who should mentor me, and which relationship deserves a reconnect?

Pin this: three names.

04 Unlearning

Which belief or habit has outlived its usefulness? Which "this is just how I am" story am I ready to retire?

Pin this: one sentence you're retiring.

05 Proud in December

It's December 2027 and I am smiling. What happened? What did I contribute beyond my role and expectations? What did I achieve?

📌 **Pin this:** your word for the year.
